

Title: **Use of Video Camera Surveillance on Buses**

Code: EEB

Section: Section E: Support Services

Academy District 20 has established a transportation program that is designed to transport students to school and back in an efficient, safe, and economical manner. Just as in the classroom, student behavior is a significant element that either enhances or degrades the overall success of that effort.

The Security Department has installed video cameras with audio capability on school buses for the safety of students and staff. The purpose of this policy is:

1. To monitor student behavior and assure safe travel for passengers. 2. To provide evidence in criminal and disciplinary cases or in the event of an accident.
