

Book	Administrative Policies
Section	Section I: Instruction
Title	Standards Implementation Review Procedures
Code	IIAC R 1
Status	Active
Adopted	September 19, 2002
Last Revised	July 1, 2021

The process and timeline described herein includes a process to review the implementation of the adopted standards:

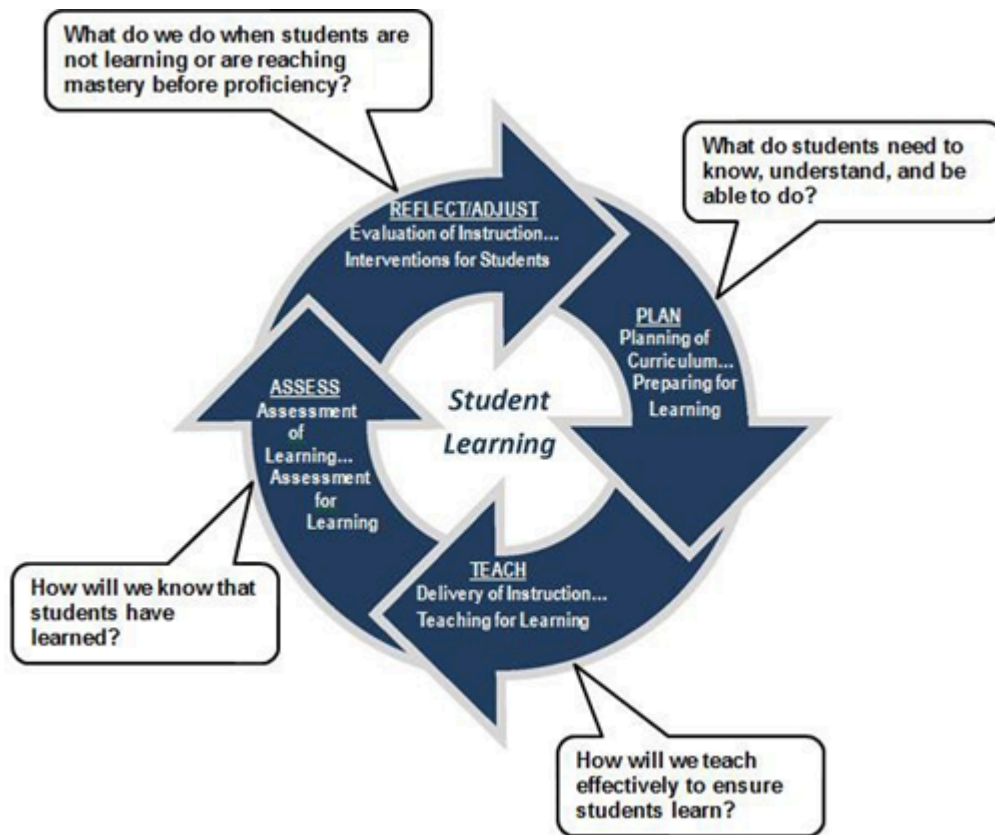

Each year, Standards Implementation Review Teams will be convened to review the designated content area following the program evaluation procedures for ongoing program evaluations in Academy District 20.

Standards Implementation Review Teams will be comprised of a representative group of educators, including teachers from each level (elementary, middle and high school). The Standards Implementation Review Team will conduct a program evaluation inclusive of a standards audit to review current practice and develop recommendations, including timelines, in the areas of:

- curriculum,
- instruction,
- assessment,
- instructional materials, and
- professional development.

Learning Services members and other Academy District 20 educators will address the recommendations of the Standards Implementation Review Team.

The Student Learning Review Cycle (SLRC), depicted below, provides the framework for the Standards Implementation Review. The SLRC has been developed to align with the components of the Learning Services' Teaching/Learning Cycle. The four key components and essential questions align with Learning Services' Characteristics of Standards-Driven Instruction.

Standards Review Timeline	
Year	Content Standards Review
1	Social Studies Arts (Visual and Performing)
2	Math Career and Tech. Ed
3	World Language Physical Education
4	Language Arts
5	Science
