

Title: **Enrollment Options for Children of Out Of District Employees**

Code: JFAB

Section: Section J: Students

All regular school district employees, employed full time in the district, who reside outside the Academy District Twenty boundaries shall be allowed to enroll their children in Academy District Twenty, if space is available. The preference level of such children shall be behind non-neighborhood district residents, but ahead of other out of district applicants. Out of district employees must follow all board policies and procedures regarding choice, including choice timelines, as the timelines are published from year to year.

Children of employees who reside outside of the school district boundaries must be enrolled prior to the first day of school in the fall of each school year in order to attend school in Academy District Twenty in any given school year.

Children of full time out of district employees enrolled in Academy District Twenty elementary schools for school year 2000-2001 will be allowed to remain in their then-current elementary school from year to year until such time as they change levels. Such children must reapply when they are ready to enroll in middle school, and again, when they are ready to enroll in high school. Their preference level will be behind non-neighborhood district residents, but ahead of other out of district applicants.

Children of out of district employees, once enrolled in Academy District Twenty schools, will be allowed to attend under the above rules relating to a change in levels until such time as the employee ceases to be employed by the District. If the cessation of employment is prior to the end of a semester, the child will be allowed to finish the then current semester in the Academy District Twenty school, unless the cessation of employment is in the first semester of the student's senior year in high school. The student in this situation will be allowed to finish the school year if the student is on schedule to graduate on time. If the student is not on schedule to graduate on time, he or she will be allowed to finish the first semester only.

Adopted/Approved: February 1, 2001

Retired Dates: **November 30, 2020**
